

# Round Up S10

360 degrees of message exposure!

**THIS IS WHERE THE ACTION TAKES PLACE!**

The Round Up S10 is a perfect meeting point for one-to-one marketing. By connecting a graphic panel to a base and top plate, you create a stable demo podium in 30 seconds. Use it as a single table or build columns of several units on top of each other.

Available in black and light grey.

With the display comes an attractive and durable bag.

The panel easily attaches to a bottom or top plate with magnets. Build columns of several units on top of each other, just by adding a Round Up Middle Plate.
